About Certified First Aid of Texas

Certified First Aid of Texas is a registered woman owned business. We are committed to meeting the safety needs of a wide range of Industrial, mobile, and office environments.

Our company offers well equipped first aid kits. Certified First Aid of Texas recognizes that each work location has specific needs according to the number of employees and work environment. We are committed to work with our customers to design a first aid kit that meets their needs.

There are no contracts to sign and no charge for our service. We will inventory and restock your first aid kit on a regular schedule. When special needs arise and our customers need equipment and supplies that we do not normally stock we will always do our best to meet our customers' special needs. Our customers always have the final decision on what is purchased. We will strive to keep you informed on changes in OSHA rules and regulations.

Our goal is to keep your employees on the job, safe and productive. We are looking forward to serving you.

Marva Ditmore-Owner
